To Whom It May Concern:

I am a licensed psychologist in the state of Pennsylvania. I work in a private practice setting and have been using NMT as taught by the NMT seminars for over two years. I have found NMT to be extremely useful and effective in treating patients and I can attest that NMT works as disclosed and as taught by the NMT seminar manual.

Attached, please find my declaration related to the application of a patent for a method of Neuromodulation Therapy.

Very truly yours,
